EVO CYCLONE

MEMORY COOLING

WORLD'S 1ST MEMORY COOLING FAN WITH REAL TIME SYSTEM INFORMATION DISPLAYED THROUGH LED !

The GeIL EVO Cyclone Memory Cooling System features the world's 1st memory cooling fan with LED display, embedded with thermal sensor, indicating surrounding temperature and real-time fan RPM.

OPTIMIZED COOLING TECHNOLOGY

Designed with airflow and heat dissipation, the metal fan bracket of the EVO Cyclone come with dual sets of cooling fin on both sides of the fan and air ducts underneath providing maximum cooling power for your high performance memory modules!

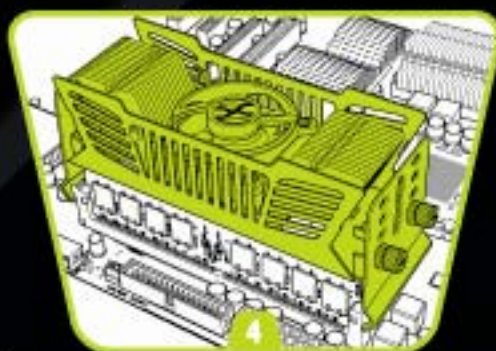

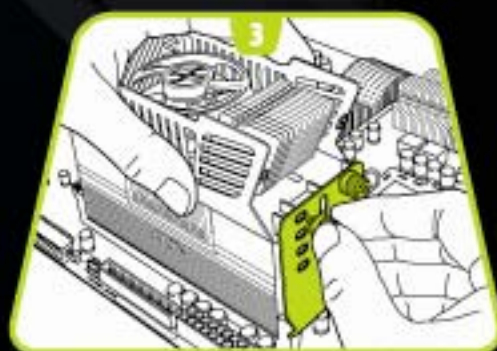

QUIET OPERATION AT 2108A

PACKAGE CONTENT:

EVO Cyclone LED Logo Fan with Power Cable x 1 Unit
Adjustable Clip x 2 Sets
Screws & Spacers x 4 Sets

FEATURES & SPECIFICATION:

- Dimension [LxWxH]: 146*52.6*106mm
- Net Weight: about 135g
- Fan Airflow: 4.04CFM
- Fan Speed: 3400±10RPM
- Fan Diameter: 50mm
- Fan Life Expectancy: 25000Hours continuous operating(25°C, 65%RH)
- Connector: 3 Pin
- Fan Voltage: 12V
- Universal heat sink bracket and clip design
- Embedded thermal sensor
- Logo Fan with LED Display of: Company Name, Product Name, real time fan RPM and surrounding temperature
- 1 Year Manufacture Warranty
